The Other Kind Live There.

A Boston clergyman a short time ago was anxious to refer to a book called “Seekers After God.”

Ranacking bookstores and libraries for it, he finally recalled to mind that a Chicago friend, also a clergyman, had frequently quoted from it, so he wrote him to look about in the Chicago bookstores and buy the book for him if possible. By telegram came the startling reply: “No Seekers After God in Chicago.”

Railroad Tax Cases.

A Frankfort special says: “The Court of Appeals has overruled all petitions for rehearing in the recently decided railroad tax cases. The majority are being certified to the local Circuit Court, which, at its January term, under the recent ruling, will have to decide most of these cases in favor of the State. All of which will result in the State's receiving several hundred thousand dollars on back taxes.”

THE CAREERS

Of Generals Who Wore the Gray.

“What has become of the Confederate Generals?” is a question very often asked but not so easily answered. Only those who have undertaken such a task can appreciate its immensity and trouble, but if it serves its purpose I shall be content.

To begin with those of the highest rank, of the five full Generals of the Confederate Army none survive. There were 21 Lieutenant Generals in the Confederate Army from first to last, and of these all were from the United States Army but four, namely, Richard Taylor, N. B. Forrest, Wade Hampton and John B. Gordon. Of them the following are living: James Longstreet, Stephen Lee, Early, Buckner, Wheeler and A. P. Stuart, besides two of those not from the United States Army mentioned above.

Gustavus W. Smith is the ranking Major General living, and makes his home in New York City. W. W. Martin lives at Natchez, and is a railroad President. L. L. Lomax makes his home in Virginia, but is in the War Records Bureau here in Washington, says a writer in the Washington Post. Frank C. Armstrong, the best United States Indian Inspector the Government ever had, for he was born in the Choctaw Nation, is now Assistant Commissioner of Indian Affairs. Hume lives at Memphis, Tenn. Churchill has been Governor of Arkansas and lives at Little Rock. Oquilt was Governor of Georgia, and is a United States Senator from that State. Dabwell for a long time was a member of Congress from Tennessee. Lyon, who commanded one of Forrest's divisions for awhile, resides at Eddyville, Ky.

Mackall, who was Brigadier General and chief of General Egan's staff, who lived over in Fairfax county, Va., not far from Washington, for many years, died about 18 months ago. McGowan is a member of the Supreme Court of South Carolina.

W. H. Miles is a cotton-planter, and was on the Yazoo river in Mississippi. Roger A. Pryor is a prosperous lawyer in New York. John G. Walker, who was down in Central America as Secretary of Legation under Dabney Maury, died last summer.

Holmes is in Mexico mining, and, I hear, making money. Of the three Lees who were Generals, Custis—who was Mr. Davis' Chief of Staff—is the President of the Washington and Lee College in Virginia. William Henry Fitzhugh Lee, generally called “Rube,” who was a planter and member of Congress from the Eighth Virginia District, died three years ago. Fitzhugh Lee, a cousin of the others and a famous cavalry officer, owns the “Ravenworth” estate, on the Potomac, about 50 miles below Washington.

Robert Lee, the General's youngest son, who served in the ranks of the Rockbridge Artillery a greater part of the war, lived until recently on the James River, where he owns a handsome estate. He is more like his great father in appearance and manner than is any other Lee. He is now a resident of Washington. I have heard—though I do not know how true it is—that it is in contemplation by the Lees to remove the dust of their grandfather (“Light Horse Harry Lee”) as General Washington always called him, from Cumberland, and bury it by the side of General Robert Lee.

Turning from the Lees to General Longstreet, the ranking Lieutenant General of the Confederacy, the world will be sorry to know he is getting on badly. He lives at Gainesville, Ga., and his house there was burned recently with all that was in it. General Early another of Lee's corps commanders, lives at Lynchburg, in the practice of law and is well-to-do. Everybody knows what General Hampton, who once commanded all the cavalry of the Army of Northern Virginia, is doing, and that Major General M. C. Butler was once his colleague in the United States Senate from South Carolina.

Of the officers in General Johnston's Army of the Tennessee R. H. and Patton Anderson are dead. General Bates is United States Senator from Tennessee, and W. H., or “Red,” Jackson, one of Forrest's division commanders, is living near Nashville on a magnificent plantation. General Wheeler, who commanded all of General Johnston's cavalry when he was only 28 years old, is a planter in Northern Alabama.

General Lawton, one of the Quartermaster Generals of the Confederacy is a leading member of the Savannah, (Ga.) bar, and General Gorgas, the Confederate Chief of Ordnance, died in Alabama a few years ago. General Cockerell, the ranking Confederate General from Missouri, now living, is the senior United States Senator from that State. E. C. Walthall, of Missouri, senior Major General from that State, is a United States Senator from Mississippi.

That Railroad.

The corps of railroad engineers who passed through town last week on route for Caney, have made a survey from Caney to the mouth of Elk Fork. The line leaves Caney near the farm of Hon. J. W. Steele, crossing the hill on the Licking river near the widow Adams property, following the right bank of the river to the mouth of Elk Fork. This, it is claimed, is very acceptable, the grade being easy. No tunneling except where the road leaves Mr. Steele's, and this is a short one. The surveyors on Wednesday were running a line from the point on Caney where they left the creek for the river to the mouth of Caney on the Licking river. It is thought that this will also be an easy line to build a road over, and there is considerable talk of this being the permanent line, which, if the case, will make our nearest point on the road about two and one-half miles from West Liberty. Yet there is hope that the road will be built on the first survey, if built from Morehead, which is almost a settled fact—Morgan Messenger.

A Four-Year's Debauch.

It was a four-year's debauch that caused the national headache. Present sobriety is not the cause of the headache. The Nation simply had to get sober of old of “delicious-treatment.” Reckless extravagance, bounties, subsidies, jobs, jingoism had to come to an end. The headache is disappearing and the national nerves are getting all right. We shall be happy yet, you bet, as Homer or some other poet has beautifully said—(Terra Haute Gazette.)

Ask Your Friends

Who have taken Hood's Sarsaparilla what they think of it, and the replies will be positive in its favor. Simply what Hood's Sarsaparilla does, that tells the story of its merit. One has been cured of indigestion or dyspepsia, another finds it indispensable for sick headache and biliousness, while others report remarkable cures of eczema, catarrh, rheumatism, salt rheum, etc.

Hood's Pills are purely vegetable.

Court-Day.

There was a fair crowd in town yesterday and business was good among the merchants. There were some 500 cattle on the market, of a rather better quality than usual. Good feeders sold at from \$2 to \$3 cents; common, from 1 1/2 to 2 1/2.

The mule market was slow, with a large supply on the streets. The buyers, as usual, went at the pinger's own price.

A large tobacco barn filled with tobacco, belonging to Mr. John McGowan, about two miles west of Mt. Sterling, was burned about 2 o'clock Saturday night. There was about 8 acres of tobacco in the barn, belonging to Mr. Benton and Van Tyler, his tenant. The tobacco was insured for \$500 and the barn, which was valued at \$600, was insured for \$400. The fire was incendiary origin.

Holiday Excursions.

The Chesapeake and Ohio Railway announces excursion rates to all points on its line, as well as to points reached by its Cincinnati connections.

Apply to Ticket agents for dates of sale, limits and other information. The Syracuse and New York, the most extensive in the United States, have an evaporating surface of over 12,000,000 square feet.

TO CALIFORNIA.

The Land of Sunshine, Fruit and Flowers.

The Midwinter Exposition already much talked of, bids fair to rival the great fair that has just closed at Chicago—not in size, perhaps; but certainly so in originality, in richness, and in delighted visitors, who will unanimously agree that the Pacific Coast is worth many times the time and money spent to visit it, in its return of delightful climate, mellow sunlight, wondrous growth of vegetation, and the heretofore unheard-of net-work of industries connected with fruit raising, and the shipping of the product.

In order to give an opportunity for everybody to visit this wonderful land during the Exposition, California rates via the Queen & Crescent Route have been reduced, and every one may find the cost of such a trip within his means.

As for equipment, it is the only line by which you can travel from Cincinnati to San Francisco, absolutely without change. Tourist sleeping cars run every two weeks through from Cincinnati to San Francisco. Solid vestibuled trains twice a day from Cincinnati to New Orleans, where connection is made with through train and Pullman sleepers daily to California points. Through car service to either New Orleans or Shreveport making direct connection for Texas, Mexico and California. From Louisville through trains make direct connection at Lexington with solid vestibuled service to New Orleans.

Send to us for further particulars. Ask Agents for rates, schedules and other information, or address W. C. Rinearson, G. P. A., Cincinnati, O.

A Fearful Collapse.

The new bridge being built over the Ohio river, at Louisville, gave way on Friday precipitating some fifty workmen into the river. About 10 a. m. while a strong wind was blowing, it was noticed that the false work was giving to some extent, and that the “traveler” (the movable girder) was swaying very much. Suddenly there came a crash, and the almost completed span was precipitated into the river with nearly all the workmen. The dead taken out numbered six and the injured sixteen, while sixteen more are numbered among the missing, all of whom are supposed to be killed. About 8 p. m. the same day a second span of the bridge fell. Those who had charge of the work attribute the disaster to the strong wind. Outside authorities seem to be of the opinion that such a disaster could only have arisen from some culpable neglect in providing proper supports for the unfinished work. This bridge has been a singularly unfortunate venture. This not being the first fearful disaster it has suffered.

In the last census, there were 1,000,000 bachelors in the United States—that is, 3,000,000 men who are old who have never married.

It is a fact that in the world there are one of the kinds of bachelors. The bachelors are European and American, and are employed by a woman.

The fact has arisen in connection with long-distance telephony that have great difficulty in hearing the voice understood. It is said the voices of women's voices, while they are on short lines, do not carry for long distances.

At some places in the south of England the appointments of the wedding are made to bear a relation to the business of the town. At a carpenter's wedding the aisle of the church was strewn with shavings; at a blacksmith's with coal and iron filings; a farmer walked on straw, a butcher on skulls.

Recently the Cunard steamer Lucania reduced the Cunard steamer Campania's eastward record by one hour and twenty-five minutes, and the Campania reduced the Lucania's westward record by twenty minutes. The two records now stand: Eastward, Lucania, 5:13.30; westward, Campania, 5:22.

By the new plan of railway tickets to be adopted in Hungary this month, the traveler will make out his own ticket. The Government will sell stamps and supply blank cards. The passenger will, when he desires to take a journey, write on a card the name of his starting point and destination, and affix as many stamps as the published list of fares calls for.

A French physician, who has found that the majority of deaths upon the battlefield arise from the bleeding to death of the wounded while waiting for the surgeon, proposes that each soldier in the French army shall be taught where the arteries of his body are, and how to arrest hemorrhages from them. In doing this, he has found a use for that most useless of arts, tattooing; a small figure of some kind being tattooed over each artery, so that the soldier can at once see where to apply the ligature.

Everywhere about the valleys of New Mexico, invariably upon eminences, and usually upon high fasted peaks or table hills, are the ruins of houses of the ancient semi-civilized Indian population that lived there and tiled the soil before the coming of the Spaniards, four centuries ago. The numbers of this old population can be only vaguely inferred by the numerous cobblestone foundations of their houses, still well defined above the surface of the ground, and by the debris of fallen walls which contain black, grass grown and intermingled with occasional old stone utensils and countless fragments of pottery. This pottery when turned up by the spade is found to be as handsome and varied in color and as fresh of tint as it could have been when the village was destroyed or abandoned and every trace of its existence lost in the prehistoric past. He who could read the rude markings on this old symbolical ware have a story of ancient America as far surpassing that gathered from the vague oral mythology of the living tribes.—Ex.

Edward Shepard, Harrisburg, Ill., had a running sore on his leg of eight years' standing. Used three bottles of Electric Bitters and seven boxes of Bucklen's Arnica Salve, and his leg is sound and well. John Speaker, Carleton, Ohio, had five large Fever sores on his leg, doctors were ineffectual. One bottle of Electric Bitters and one box of Bucklen's Arnica Salve cured him easily. Sold by S. B. TUESDAY, DEC. 19, 1893.

Senator Martin's (Kansas) election is to be investigated by the Senate Committee on Elections Wednesday decided to take up the case of February, allowing the Hon. Joseph W. Ady, who contests Mr. Martin's election, thirty days in which to prepare his case.

The Morning Messenger says Judge John E. Cooper is spoken of as a candidate for Congress. From the amount of favorable comment the simple suggestion has raised, we would say the Judge would find a most enthusiastic following in his home county should he become a candidate.

The General Assembly of Virginia Friday decided by a unanimous vote to investigate the charge that money was used in the recent election of Hon. Thos. S. Martin to be United States Senator. Four of the members of the joint committee organized for the purpose voted for Gen. Lee in the caucus and three for the Senator-elect.

Bishop Cleveland Cooke, of New York, (Episcopal) has written an open letter to Monsignor Sison, in which he attacks the order of Jesuits bitterly. He asserts that the Jesuits, headed by Sotillo, are behind the faction led by Gov. Morgan in New York and that in Maryland and New York the order has made open war on the public school system.

Judge Thompson made a solemn decision this morning. Eight terms were before him and, as usual, each claimed to be a working man, and gave a detailed account of his travels in search of work, and when he worked last. One told of travels over a number of States in search of employment. As the best proof the Judge ordered a show of hands, and in default of hands on the palms they were adjudged vagrants and paid the penalty.—Louisville Post.

The sensational fact has been disclosed that copies of important dispatches supposed to have been written by Secretary Blaine to Minister Stevens in regard to the latter's policy in Hawaii are missing from the official records in the State Department. One, in particular, is the reply to a letter from the Minister, written March 8, 1892, in which he revealed his knowledge of the plot for the Hawaiian revolution, ten months before that event, and sent for instructions. The delay in sending the correspondence to Congress is said to have been caused by the search for these missing documents.

Senator Voorhees on Thursday introduced a bill providing for the coinage of sealigence or silver now in the Treasury into standard silver dollars at a rate not less than \$2,000,000 annually; the purchase and coinage of not less than \$2,000,000 of silver per month when the sealigence is all coined, and the retirement of all notes below \$10 in favor of larger notes of \$20 and \$5 gold pieces, which are to be canceled. The resolution also provides for another international monetary conference. Mr. Voorhees explains that his proposed measure does not come before the Senate backed by the cordial support of the administration.

Col. J. C. Blackburn from Kentucky, "the gad, sir," has been making a number of mighty bad breaks lately. His last essay was ordering the closing of the Senate chamber to visitors; giving as his reason, when a protest was raised, that he objected to the "excursions" who infected the Capitol in thousands. He declares the Capitol was built for legislation, not for sightseers. The Hon. Mr. Blackburn seems to be filled with the idea that the people of Kentucky have built a strong fence between him and private life. He further seems to be breaking into the field with the way, alas, home. Go on, Joy B, you can't get there.

Set a Bad Example.

"Sam Jones says he believes in living so that your children may put their feet in your tracks and be honorable," remarked Gus De Smith. "Yes," replied Hostetter McGinnis, "before Sam joined the church he used to walk on both sides of the street when he went home at night, and that is a bad habit for children to acquire."

WASHINGTON LETTER.

WASHINGTON, D. C., Dec. 16, '93.

The Hawaiian question was taken up at yesterday's Cabinet meeting, and the subject of the correspondence to be sent to Congress was discussed. The President declared his intention sending his special message, together with the accompanying papers, early next week. The President is very anxious as to what has passed in Honolulu since the advice received by the Oceanic, but he has great confidence in Minister Willis, and is satisfied that the status quo has been maintained. Secretary Gresham advised the delay of the message until an answer is received to the dispatches sent by the Corwin, but President Cleveland, who was in the matter of his hands before the holidays.

Three more new States have been added to the Union, and these three are Democratic. The Republicans were very bitter against admitting the Territories of Oregon, Utah and New Mexico, but the Democrats were in the majority and they were admitted.

The House Committee adopted Representative Doolittle's resolution yesterday, for a commission to visit Nicaragua and inspect the canal, after hearing the report of Senators Morgan and Fry in its support.

The silver men in Congress intend to use the Vortice Bill on the stump and in Congressional debates as a confession from the President's side of the question that unconditional repeal of the silver purchase law has failed to accomplish what it was claimed it would. The silver men believe they can make it an effective weapon.

The good work of cutting heads off is still going on. There is one very important office yet filled by a Republican which the President has delayed, for some unknown reason, to fill by a good Democrat, and that office is Public Printer. Mr. Palmer still holds on, but there are prospects of him having to give up his job very soon.

Assistant Secretary of War took the oath of office Thursday and entered upon his duties.

The Treasury balance yesterday was \$92,199,041, a decline of \$3,000,000 since December 1st. G. H. S.

Favored Citizens.

The negroes are the most favored citizens of Lexington. They pay very little of the heavy taxation that rests upon the white people, and yet they have schools furnished for their children, the benefit of the paved streets and street lamps, police protection, hospital accommodation and food and fuel furnished them if they are too lazy to work, and even when they do work a large majority apply for and receive supplies from the charity organizations. No wonder so many of these people come into the city in the fall and winter to be supported at the public charge. They seem to be the pets of Lexington, and while the white people are taxed within an inch of their lives, these favored negroes have the best of everything, employ a large body of police to look after them and a city court devotes its session almost exclusively to them. Never was there in any town such a favored class of citizens. It is a wonder any of them stay in the country or other towns. Come on gentlemen of woolly heads and black skins, the people of Lexington will give you hearty welcome—food, feed and nothing to pay. The white trash have made ample provisions for you, and if your wants are not promptly attended to, there are hundreds and other little stores laid up for your accommodation.—Lexington Gazette.

T. J. Henry purchased last week a small farm near Ezel, from John A. O'Neil. He also sold his store of general merchandise to W. M. Kendall and bought from Mr. Kendall the John M. Prater farm on Licking river containing about 400 acres, and the farm opposite West Liberty, containing 68 acres, and house and lot on Stone street.

Mr. Henry has 15 farms in Morgan and Magoffin counties, most of them elegantly furnished and full of casual and blithesome coast—Morgan Messenger.

Excavations in Palestine would prove that hot air blast furnaces were used some 1400 years B. C. The origin of such furnaces has been credited to Nelson in 1828.

Captain Pat Punch, Deputy United States Marshal, started from this point on Saturday evening for Washington, D. C., with two boys, Zora Trumbo, aged 13, and Albert Barker, aged 14, where they are to be placed in the School of Reform. Zora Trumbo, last spring, stole from the postoffice at Morehead, some one, two and three cent coins to the amount of about sixty cents. He was tried in the Federal Court in Covington and last week sentenced to one year in the School of Reform at Washington. The boy is so small that when the Judge passed the sentence on him, he was compelled to partially rise from his chair in order to see the child over the desk. Albert Barker is from Bracken county, and at the same time of the Court he was sentenced to two years in the Reform School at Washington. His offense consisted in passing a counterfeit dollar. The Barker boy has lost one leg, having fallen under a car some years ago. The kind-hearted Marshal actually seemed to feel much worse at having to take the boys off than they did to go. His kind fatherly advice to them and the tender care he exhibited for them and comfort, spoke more for his credit than bringing in a whole army of moonshiners could do.

We are glad to learn that the young gentlemen of your town and county have organized a debating club. The general design of the society as determined at the organization meeting Saturday night, is the discussion of questions of current interest, and such especially as will tend to make the participants more excited and accurate sense of the duties of citizenship. Incidental to this broader design will be the acquisition of a better knowledge of parliamentary usage, and a greater fluency in public address and in the art of effectively impressing opinion upon others. We trust that the truly estimable spirit in which this organization has been formed, will not be found lacking in tending to its future development in earnest and constant support. The young men who are in genuine sympathy with the aims herein expressed, and over the age of seventeen, will, we understand, be welcome into the membership. The next meeting will be upon Saturday night next, when all officers will be elected, and the first debate upon the question of the municipal ownership of water works will be held. The club holds its meetings at the rooms of the Y. M. C. A.

A New Departure.

Beginning with the 1st of January, 1894, we will adopt a STRICTLY CASH SYSTEM. We take this departure from the old established manner of doing business has been so long in vogue in Kentucky, after due thought and deliberation, knowing it is not only to our interest, but that it is to the interest of every one. We are driven to this course by the great stringency in money matters, and the difficulty of collecting our accounts when the change of the Credit System being on the increase continually. To those who have so kindly patronized us in the past, we extend our sincere thanks and trust they will realize the importance of this "New Departure" by continuing to give us their patronage.

21-4t R. M. & T. K. BARNES.

God keeps a school for His children here on earth; and one of His best teachers is named Disappointment. He is a rough teacher, severely in tone and harsh in his handling, sometimes, but his tuition is worth all it costs. Many of our best lessons through life have been taught us by that stern old schoolmaster Disappointment.—Cuyler.

An apparatus to register the time taken by each person in using a telephone has been invented in Germany. It is called a "telephone-meter," and is the design of the telephone companies to use its figures as a basis for their charges for the use of telephones. When this "meter" is attached to telephone talk over a telephone it can be predicted, will be as concise as a telegraph message.

The town of Middleborough is without water, and the people are forced to take their life's draught. The cause of the prevailing dryness is the dismantling of the machinery, alleged to have been done by the late engineer in revenge for being discharged. It was necessary to send a delegation to Covington to obtain from Judge Barr an order to the engineer to put the machinery in order or be punished for contempt.

One in seven of all deaths comes from Consumption. It kills about the proportion. And almost every death from Consumption comes from neglect and delay. The best remedy in preventing the disease is in curing it early. You can prevent it, and cure it, if you'll act in time. With Dr. Pierce's Golden Medical Discovery, for and improve blood makes you an easy victim of the disease. The system invites it. You must reach the disease through the blood, and the "Discovery" does it. It's the most potent and effective blood-cleanser, strength-restorer, and flesh-builder that's known to medical science. The scientific analysis of the lungs that's called Consumption, and every form of scrofula and blood-taint, all yield to it. For Weak Lungs, Spitting of Blood, Bronchitis, Asthma, and all severe, lingering Coughs, it's an unequalled remedy. And it's the only one that's guaranteed to do what it claims for it. If it fails to cure, you have your money back.

The January number of The Forum (reduced to 15 cents) will contain an important review of the whole Hawaiian question by Mr. James Schooner, the well-known historian, who writes a not for the sake of controversy, but to tell the facts of the whole content and set them forth in their proper proportion.

Judge Bennett, for the Court Bynolds, Saturday handed down the court's decision in the two cases affecting the right of the Frankfort lotteries and other lotteries to operate in this State. The Court holds that the franchise of the Lottery Company, it ever had any, is void. This settles the death-bell of the lotteries in this State; and Kentucky will no longer bear the uneasiness and reputation being the only State where a lottery franchise can exist.

The Solution Was an Easy One.

In a certain church in Ireland a young priest was detailed to preach. This occasion was his first appearance, and he took for his text: "The Feeding of the Multitude."
 He said: "And they fed 10 people with 10,000 loaves of bread and 10,000 fishes."

An old Irishman said: "That's no miracle, boy. I could do that myself," which the priest overheard.
 The next Sunday the priest announced the same text, but he had it right this time. He said: "And they fed 10,000 people on 10 loaves of bread and 10 fishes."

He waited a second, and then leaned over the pulpit and said: "And could you do that Mr. Murphy?"
 Murphy replied, "And sure, your reverence I could."
 "And how could you do it?" said the priest.

"And sure, your reverence, I could do it with what was left over from last Sunday."—E. S.

The custom of bottling tears peculiar to the people of Persia. They constitute an important part of the obsequies of the dead. As the mourners are sitting round and weeping, the master of ceremonies presents each one with a piece of cotton wool or sponge with which to wipe away the tears. This cotton wool or sponge is afterward squeezed into a bottle, and the tears are preserved as a powerful and efficacious restorative for those whom every other medicine has failed to revive. It is to this custom that allusion is made in Psalms vii, 8: "Put thine eyes into this bottle."

IT IS NOT what we say but what we do. Hood's Sarsaparilla does that tells the story of its merit. When in need of medicine remember **HOOD'S CURES**.

HORSE AND TRACK.

Arion's service for next year will be \$500.

Fantasy, 2:08, at three years, is the youngest 2:10 trotter.
Gulmette, 2:10, and Clover Leaf, 2:51, were gelded recently.

Of Director's fifteen beats in 2:10 or better, ten were made in race.

Corinne, 2:44, was shipped to Knapp Saturday. She was purchased by Fratelli George, of Bologna, Italy.

Director landed about \$22,000 for Salisbury this year, and is the largest winner among the trotting brigade for 1893.

At the present time it does not pay to breed inferior stock, and it is to be sincerely hoped that it never will again.

Director's Flower, 2:12, by Director, is now owned by I. R. Rose, of Providence, R. I., who paid \$5,100 for her at a New York sale last week.

This year's horse show was a great financial success, as is evidenced by the fact that the National Horse Show Association declared a regular dividend of 10 per cent, and an extra dividend of 30 per cent, a total of 40 per cent on the capital stock.

So trustworthy an authority as Cris Davis says that in his observation one smart cuff on the coronet has time and again spoiled a colt's chances to take his work cheerfully and naturally for almost an entire season, and that any attempt on the part of a trainer to give a horse track work without boots was sure to end in discomfiture.—Stock Farm.

Mascot and Flying Jih have each passed in 2:10 or better twenty times. Hal Pointer has eighteen 2:10 heats to his credit; Direct 18, Johnston 13, Guy 11, Robert J. 10, Roy Wilkes 8 Manager 7, Jay-Eye-See 6, Blue Sign 6, Hal Dillard, May Marshall, Saladin, Silkwood, and W. Wood, each 4.

The Maryland Legislature has enacted a law, punishing by a fine of \$1000, or imprisonment for one year, any person who shall advertise or offer the services of a stallion, to the public without first having the animal recorded with the County Recorder and taking out a license to do business. The law requires the owner to give the name, age, pedigree and record, if any; also description, terms and conditions upon which the stallion will stand for service.

A dispatch from Independence, Iowa, states that C. W. Williams notified R. Campbell, who holds a mortgage on his property, except his horses, for \$100,000, that he (Campbell) could have, without foreclosure, the property which includes the Bush Park race track; the opera house, the electric street railway and Williams' residence. This leaves Williams practically short of his fortune, except that he will still own Allerton and a number of good colts and brood mares. Too much outside speculation ruined him. Williams got his start by selling Axtell for \$105,000.

LAND, STOCK AND CROP.

J. D. Held sold his crop of about 16,000 pounds of tobacco to Robert Sonley, buyer for Liggett & Myers at 9 1/2 cents per pound.

Messrs. Steadman & Bowman the real estate brokers of this city have sold to G. T. Higginbotham, formerly of Garrard County, the farm of A. A. Kitzmiller one mile from the city on the Old Frankfort turnpike. The farm contains 129 acres and the price realized was \$15,480.—Lexington Gazette.
